

*Workshop on the Asboth project program of Semmelweis University, Institut of
Pathophysiology
on 22nd November
Semmelweis University (NET) Nagyváradi tér 4.
XVI. floor, Institut Library*

I would like if all people working on this project could attend
(including the technicians)

I suggest the following agenda

1. Report on the project per team members

All members give 10 minutes what was the work he/she performed in the project

L Szollár.
M. Mózes,
P. Hamar,
G.Kökény,
E. Papp
Zs. Szabados
M. Feith
É.Lakatos

(Á. Cser, J. Takács, G. Kós, Zs. Serfőző Mrs. Pekár, M. Mózes will report on their task)

**2. Summary of the progress of atherosclerosis group - what we have
done well where to improve? Overview the original budget and cost spent for
the project**

Miklós Mózes

3. Proposal

Miklós Molnár

4. Extension of the atherosclerosis vaccine group

Julianna Lisziewicz

5. Evaluation - future directions

Lajos Szollár
